

The SUN Network and NHS are Looking for your Feedback Around Dementia to help Improve Support

If you or a loved one are on the waitlist for a memory clinic appointment, or you or a loved one have a diagnosis of dementia - we would like to hear from you.

The SUN Network want to ask specific questions to people in Cambridgeshire and Peterborough about their experiences of the journey of getting a diagnosis of dementia.

This information will be anonymously shared with the NHS, who are looking to improve the current care and support that is available for people who are waiting for or have a diagnosis of dementia.
